

# TECHNOLOGY REPLACEMENT FUND

## DESCRIPTION

The Technology Replacement Fund was created in FY01 to serve as an internal service function for general government technology replacement costs. This fund provides for the replacement of general government computers and related technology equipment.

## OBJECTIVES

- To allow Henrico County to utilize technological advancements as they occur.
- To spread the cost of replacing technology equipment over a period of multiple years to reduce the impact of large one-time purchases in a given year.
- To provide centralized accounting to accurately monitor the number and cost of technology equipment replacement.
- To ensure the County does not find itself in the position of having to issue long-term debt to pay for routine technology equipment.

BUDGET HIGHLIGHTS

The FY24 budget for the Technology Replacement Fund totals \$3,841,471. It is important to note that funding of \$3,500,000 to support this budget request is to be provided by a transfer from the General Fund. This reflects an increase of \$500,000 from the previous approved budget.

The request for replacement equipment includes equipment that is eligible and approved for replacement based on age and usage. While there may be a budget for specific items, some funding is provided for contingency and will only be spent if necessary. In an effort to reduce expenses, departments were requested to review computer requirements to determine if an extended replacement cycle is practical based on the use of the computer. The Department of Information Technology approves the replacement request based on the computer's use as well as the user's anticipated needs.
